Subject: Seeking the final demonstration from KS for Flint Hills fires

Mike,

I don't think anyone in Region 7 has sent the final, adopted demonstration document to us. Thanks.

Yes, this is what I was looking for. Thanks.

There may be an issue needing attention regarding the data in AQS for the CASTNET site. I suspect that KS does not have access rights to apply event flags to those data, since the ozone monitor is (I assume) operated by a contractor to the Clean Air Markets Division rather than the state agency.

Amy,

Can u chase this down and get to phil? I don't know that this has crossed my email path, and since stephanie doolan is out, I don't know of anybody else in the office. Thanks

Phil Lorang
